

JEET SONI

+1 (732)-896-1023 | South Plainfield, NJ | jeetsoni.dev@gmail.com | linkedin.com/in/jeet-dev | github.com/jeethsoni | justdev.me

EDUCATION

Rutgers University – New Brunswick

Bachelor of Science in Computer Science

Sep 2022 – May 2025

New Brunswick, NJ

Middlesex College

Associate of Science in Computer Science

Sep 2020 – May 2022

Edison, NJ

PROFESSIONAL EXPERIENCE

Associate Analyst

Mar 2026 – June 2026

Ernst & Young

San Antonio, TX

- Contributed to AI and data-driven consulting solutions by implementing backend logic, writing unit tests, and preparing technical documentation for client delivery.
- Translated business and technical requirements into code-level tasks, test cases, and implementation notes for software delivery workflows.
- Validated application outputs against functional requirements and collaborated with senior engineers to identify defects, improve test coverage, and support release readiness.

CEO & Founder

Dec 2025 – Present

Run It

South Plainfield, NJ

- Founded and developed Run It, a Flutter mobile app that helps Basketball, Tennis, and Pickleball players discover nearby courts, view activity, and connect with local athletes.
- Implemented authentication, backend data workflows, and state management using Firebase Auth, Supabase, Google Sign-In, Apple Sign-In, and Provider.
- Integrated geolocation services, background processing, and push notification workflows to support real-time mobile application functionality.

Software Engineer Intern

Jan 2025 – May 2025

Sanctumcloud

Ashburn, VA

- Engineered Express.js microservices with MongoDB, improving backend data processing and query efficiency across production API workflows.
- Devised and deployed Zod-based validation middleware and optimized MongoDB schemas and indexes, reducing data inconsistencies by 40%.
- Developed and tested REST API features in an Agile environment, participating in sprint planning, code reviews, and backend debugging to support production delivery.

Software Engineer Intern

Jun 2024 – Aug 2024

CodePremi

Middletown, MD

- Spearheaded development of scalable FastAPI endpoints with PostgreSQL, reducing request latency by 22% and improving API throughput.
- Refactored raw SQL queries into SQLAlchemy ORM and implemented JWT authentication with unit tests, achieving 85% coverage and strengthening system stability.
- Collaborated directly with the founder to develop and deploy new backend features, gaining hands-on experience in product decision-making and rapid iteration.

PROJECTS

Devgod-CLI | Go, Cobra, Ollama

Nov 2025 – Dec 2025

- Built a Go-based CLI using Cobra to automate Git workflows from natural-language intent for faster commits.
- Implemented diff-aware commit generation and interactive PR creation to streamline developer collaboration across feature branches.
- Integrated local AI inference via Ollama and distributed macOS binaries through Homebrew for easy installation.

Automated Seat Wiper | C++, Arduino, Ultrasonic Sensors, IoT

Jul 2025 – Aug 2025

- Built an Arduino-based IoT sanitation prototype using C++, ultrasonic sensors, and servo motors for automation.
- Programmed sensor detection and motor-control logic, achieving 95% detection accuracy during prototype testing phases.
- Designed and tested a hardware-software prototype for automated restroom hygiene improvement system.

MoviesHub | Python, Flask, PostgreSQL, PyTest, Swagger, Pydantic

Jul 2024 – Aug 2024

- Designed a PostgreSQL schema and Entity-Relationship diagram from structured movie data to support normalized database storage.
- Developed Flask CRUD endpoints with Pydantic validation to handle movie, genre, and related database operations.
- Tested API endpoints with PyTest, added logging for debugging, and documented request/response behavior using Swagger.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, C#, JavaScript, TypeScript, SQL, Shell Script, HTML/CSS, Go, Dart

Frameworks & Libraries: FastAPI, Flask, Node.js, Express.js, React.js, Next.js, Spring Boot, SQLAlchemy, Flutter

Databases: MySQL, PostgreSQL, MongoDB, Redis, Supabase

Tools & Platforms: Git, Docker, AWS, Firebase, VS Code, Jira, Postman, IntelliJ, Eclipse

Core Competencies: Agile/Scrum, REST APIs, OAuth2, JWT, API Documentation, Swagger/OpenAPI, Test-Driven Development

CERTIFICATIONS

AWS Certified Cloud Practitioner

Feb 2025

Microsoft Certified: Azure Fundamentals

May 2026
